STAFF COMMENTS

- 1) ***Need for the bill.*** The Commission is responsible for administering financial aid programs for students attending public and private postsecondary institutions. According to the author, each segment of higher education serves a distinct student population as such limiting membership on the commission to two students does not allow for equitable representation of the other student groups. The Student Senate for California Community Colleges, the sponsors of the bill, asserts that, “the demographics of each of our systems is quite diverse from one

another, which leaves a heavy burden for two individuals to represent over 3.5 million students from four unique, but interconnected systems, leading to key communities being disenfranchised in the process.”

- 2) ***Appointments of student members.*** Existing law provides for two student commissioners from different higher education segments, nominated by the appropriate student association and appointed by the governor to serve on the Commission for two year terms. The higher education segments are designated as University of California (UC), the California State University (CSU), the California Community Colleges (CCC), independent institutions (non-profit), and for-profit institutions. The two student positions rotate among these four segments and representatives may not be enrolled in the same segment of the outgoing or the other sitting student member. Current law also requires that the two student representatives on the Commission be enrolled in his or her respective institution for the duration of their term.

Rather than rotating the two student positions among the four segments this bill seeks to establish four fixed seats thereby ensuring that each student population has a permanent voting member on the Commission.

- 3) ***Related legislation.*** AB 2154 (Medina) would authorize a student commissioner to serve for an additional year after the expiration of their term if a successor has not been appointed, requires a qualifying institution to waive a student members’ tuition for the duration of their term in office if that student is not a Cal Grant recipient and further requires the commission to notify the appropriate student organization of the opportunity to submit a list of nominees. AB 2154 is scheduled to be heard by this Committee on June 8th.
